

Internship Management System

Student User Manual

A step-by-step guide to browsing, applying, and tracking your internship

Version 1.0 | 2026

1. Getting started

This manual walks you through using the Internship Management System (IMS) as a student, from creating your account to downloading your completion certificate.

1.1 Creating an account

Go to the Register page and select **Student** from the role dropdown. Fill in your email, password, full name, TVET student ID, school name, course area, and level of study, then click **Sign Up**.

1.2 Logging in

Go to the Login page, enter your registered email and password, and click **Login**. You will be taken directly to your dashboard.

Note: If you forget your password, use the “Forgot password” link on the Login page to reset it via email.

2. Your dashboard

After logging in, your dashboard gives an overview of your activity:

- A welcome message showing your name, course area, and level.
- Summary cards showing applications sent, accepted, and pending.
- Quick-action shortcuts to Browse Internships, My Applications, Notifications, and Certificate.

3. Browsing and applying for internships

Open **Browse Internships** from the sidebar to see opportunities matching your course area.

- Each listing shows the title, company, location, duration, and deadline.
- Click **Apply** on any listing to submit your application instantly — no extra form is needed, since your profile already contains the information companies review.
- Once applied, the button changes to “Applied” and stays that way even after you log out and back in.

4. Tracking your applications

Open **My Applications** to see every internship you have applied to, along with its current status:

- **Pending** — the company has not yet made a decision.
- **Accepted** — you have been selected for the internship.
- **Rejected** — your application was not successful this time.

5. Notifications

The **Notifications** page shows updates whenever a company accepts or rejects your application, or when a new internship matching your course area is posted.

6. Progress and performance

Once you begin an internship, your host company submits weekly progress reports which you can view under **Progress**:

- Weekly reports showing attendance, tasks completed, and grade.
- A current performance status: Excellent, Very Good, Good, or Needs Improvement.

7. Certificate

Once your internship is marked complete by your host company, your digital certificate becomes available under **Certificate**. Click **Download certificate** to save it.

8. Your profile

Open **Profile** from the sidebar to view your registered details: full name, email, TVET student ID, course area, level, and school name.

9. Getting help

If you run into any issue, open **Help & Support** from the sidebar. You can:

- Browse frequently asked questions specific to students.
- Send a message directly to the admin team describing your issue.
- Find the support email and phone number.
